Our CSR approach

*Breathe
together*

Our latest CSR actions

Environmental

Optimise the environmental impact of our products

Design recyclable solutions, that use recycled materials with low carbon footprint.

Ecodesign diffuser, made from recycled steel (certified UNI EN ISO 14021)

Eco-responsible, reusable stands.

Ecodesign of our packaging, with 100% recycled and 100% recyclable material as a target...

Extend the life of products by promoting reparability.

Charging stations on carparks.

Societal

Invest in healthy, longterm relationships with our business ecosystem

Creation of the France Air Pur internal label to identify products that promote IAQ.

Energy efficiency approach for the premises:
Setting up of energy saving referents
Progressive renovation of lighting with LED systems

Initiation of a carbon assessment & Encouraging employees to carry out their own carbon audit.

Social

Make the Group a hub of professional opportunities for all

Encourage sport with sports sessions during the lunch break for employees.

Quality of life at work:
Renovation of premises and employees satisfaction surveys to canvass employees opinion

**Independent
family group**

**23 companies
in 14 countries**

Eco Responsibility

Indoor Air Quality

Innovation

About 30 patents

Customer Centric

420 sales people in Europe

The background features a vibrant, abstract splash of colors including blue, purple, and red, with a semi-transparent grey circular overlay. The Airvance Group logo is centered in the upper half of the image.

AIRVANCE GROUP 

The 'Just Breathe' logo is a white line-art illustration. It depicts a wind turbine on the left, a stylized city skyline in the middle, and a leaf on the right, all connected by a flowing line.

JUST BREATHE
